Other	Yes, with safe business practices and physical distancing and protective measures	Yes, with safe business practices and physical distancing and protective measures	

Safe Business Practices

Establishing, to the extent possible, curbside pick-up to reduce in-store traffic and mitigate outdoor lines.
Establishing entry lines outside of the business with markings for patrons to enable them to stand at least six (6) feet apart from one another while waiting to enter. Businesses are encouraged to also use alternatives to lines, including allowing customers to wait in their vehicles for a text message or phone call and scheduling pick-ups or entries to the store.
Ensuring one-way traffic in shopping aisles.
Increasing standards of facility cleaning and disinfection to limit worker and patron exposure to COVID-19, as well as adopt protocols to clean and disinfect in the event of a positive COVID-19 case in the workplace.
Adopting policies to prevent workers from entering the premises if they display respiratory symptoms or have had contact with a person with a confirmed diagnosis of COVID-19.
Complying with Physical Distancing and Protective Measure Requirements.
Ensure indoor/outdoor air exchange rates meet the requirements per Commercial Building Code as designed and approved for proper ventilation. Allowing for increased outdoor air (i.e. – open windows) when allowable is recommended.
